- Results-Driven
- Innovative Problem Solver
- Technological Advancement

## EXPERIENCE

**Company Name:** opensauced

2022 – 2024

**Website:** <https://opensauced.pizza/>

**Company Profile:** Discover the best engineers doing open-source, during the most challenging hiring season in history, we are building a platform to help engineers expand their resume through open-source contributions.

**Designation:** Frontend Engineer

- Played a pivotal role as one of the early employees at OpenSauced, contributing significantly to front-end development. Worked closely with senior engineers to lay the groundwork for the insights platform, showcasing a proactive and hands-on approach.
- Transitioned from a frontend-only role to actively participating in both API and frontend development. This dual-role experience not only broadened my skill set but also provided a holistic perspective in addressing and implementing feature requests.
- Collaborated closely with a team of 10x senior engineers from renowned companies like AWS, Netlify, and Ngx. Engaging with such seasoned professionals enriched my experience, offering valuable insights and diverse perspectives that contributed significantly to both the project's success and my personal growth.
- Demonstrated effective communication and thought leadership within the development community, further enhancing the visibility and reputation of both OpenSauced and personal brand.
- Authored a compelling blog post about how I got hired via open-source contributions which hit top-5 for the month with over 30k views in less than 4days. This post was a motivation to beginners who were scared of diving into open source.

**Company Name:** Vessel-labs

2023

**Website:** [www.vessel-labs.com](http://www.vessel-labs.com)

**Company Profile:** Vessel Labs is a full-service digital product studio based in Nigeria. We work with ambitious founders to turn ideas into winning products and winning products into scalable businesses.

**Designation:** Frontend lead

- Led the frontend team at Vessel Labs, assuming the role of Lead Frontend Engineer and orchestrate the successful execution of diverse and complex projects.
- Demonstrated effective leadership in guiding the frontend team through various project phases, ensuring cohesion and efficiency in project delivery.
- Contributed to the development of a comprehensive understanding of frontend technologies and methodologies, resulting in the successful completion of intricate projects and the establishment of a collaborative work environment at Vessel Labs.
- Conceptualized and built My Native Tree, a family tree repository, showcasing adept project management skills in navigating one of the most complex endeavors.
- Successfully led the team through a rapid and effective development process,

**Company Name:** softkodes llc

**2020-2021**

**Website:** [www.softkodesllc.com](http://www.softkodesllc.com)

**Company Profile:** Softkodes aims to bridge the technical gap for entrepreneurs and businesses in Africa and Europe, offering custom software development, UI/UX design, business analysis, and strategic consulting services.

**Designation:** Frontend Web Developer

- Spearheaded the reconstruction of SoftKodes LLC's company page, undertaking a complete rebuild from scratch.
- Demonstrated efficiency and proficiency by completing the project within an impressive timeframe of less than two weeks.
- Successfully revitalized the company's online presence, showcasing a strong
- commitment to delivering high-quality work within tight deadlines at SoftKodes LLC.
